

Learning at Home

When the school is closed for any length of time it is important pupils continue to learn. Pupils will have materials and tasks set by staff along with notes that can be used to consolidate learning.

A number of web sites also have excellent materials – these can be browsed by pupils to find tasks, revision, extension work related to the subjects/topics they are studying in school. The following are recommended:

www.bbc.co.uk/schools/bitesize **Bitesize** – Revision and learning materials for Standard Grades.

www.bbc.co.uk/scotland/learning – A variety of resources at different levels and for different subjects.

www.scholar.hw.ac.uk **Scholar** – Mostly materials for Advanced Higher and Higher and some of Intermediate 2's in the Sciences, Maths, Computing and a variety of other subjects.

www.sqa.org **SQA** (Scottish Qualifications Authority) – has past papers, study guides etc. Start by clicking on the “school learner” to access materials for each subject and more general study advice

www.sqa.org.uk/sqa/41288.html This site also has links to other useful sites

www.ltscotland.org.uk **Learning and Teaching Scotland** - The Learning and Teaching Scotland site has resources for virtually all subjects and levels. The site contains links to other web based resources.

GLOW - where departments have added materials.

There are other sites identified by staff for S4 revision. These listed below:

General Revision Advice/Study Skills
